Remote Full-Stack Developer · DevOps Engineer · Lifelong Learner

ABOUT

Shipping production software that scales — trusted by engineering leaders worldwide. KAIZEN-driven: continuous improvement in every sprint, every deploy, every review.

TECHNICAL SKILLS

- JavaScript / TypeScript
- React / Next.js
- Node.js / NestJS
- Vue.js / NuxtJS
- PHP / Symfony / Laravel
- PostgreSQL / MongoDB
- AWS / GCP / Cloudflare
- Docker / CI/CD
- Python / Rust
- TailwindCSS / SASS

COMPETENCIES

- Full-Stack Web Development
- Architecture & Migration
- DevOps & CI/CD
- AI & Web3 Solutions
- RESTful API Design
- Microservices Architecture
- Agile / Kanban Methodology
- Code Quality & Reviews
- UI/UX & Wireframing
- Blockchain / dApps

EDUCATION

Mindanao State University
Iligan Institute of Technology
B.S. Information Technology
Major: Database Systems
2015 – 2018

LANGUAGES

Filipino — Native
English — Fluent

PROFESSIONAL SUMMARY

I ship production software that solves real problems — on time and built to last. Specializing in full-stack development and DevOps engineering, I deliver scalable, efficient applications using Next.js, React, Node.js, NestJS, PHP, and Laravel. My KAIZEN philosophy drives continuous improvement in every sprint, every deploy, and every code review — trusted by engineering leaders worldwide.

PROFESSIONAL EXPERIENCE

BIST Consulting
Feb 2025 – Mar 2026

Software Developer · Hannover, Germany (Remote)

- Independently developed and resolved system issues across multiple client projects.
- Built software solutions in PHP, JavaScript (React & Next.js), and Python.
- Learned and independently developed backend solutions in Rust.
- Maintained regular communication and collaboration via chat and video conferencing.

PHP · React · Next.js · Python · Rust · JavaScript

Metricapp.co
Nov 2023 – Apr 2025

Senior Full-Stack Engineer III · UAE (Remote)

- Revamped legacy code and built a modern analytics platform using Next.js, Firebase, and TailwindCSS.
- Led key BI features; implemented GCP CI/CD pipelines and Vitest unit testing.
- Took ownership of the Next.js web app from inception and led its full development.
- Mentored junior developers; received Monthly Peer Recognition for setting new excellence standards.

Next.js · Firebase · TailwindCSS · PostgreSQL · Node.js · GCP

98Labs Inc.
Mar 2022 – Oct 2023

Software Engineer

- Revamped legacy code and built a robust platform using Next.js, NestJS, MongoDB, and SASS.
- Collaborated with a major Philippine bank to resolve process API issues on IBM ACE.

Next.js · NestJS · MongoDB · IBM ACE · Oracle SQL

Confidential Client (NDA)
Mar 2022 – Aug 2023

Full-Stack Developer (Part-Time)

- Developed an accounting application; collaborated with the product team on front-end design.

React.js · Redux · KnexJS · PostgreSQL · TailwindCSS · NodeJS

Centralized Cloud Computing International Inc.
Jun 2021 – Jan 2022

Full-Stack Software Developer

- Developed Campus Management System for Mindanao State University.
- Contributed to micro-services development and database structure design.

VueJS · NuxtJS · ExpressJS · NodeJS · PostgreSQL

D.Buzz
Jun 2019 – Jun 2021

Mid-Senior Full-Stack Core Developer

- Built social networking dApps on top of Hive Blockchain / Ecosystem.
- Contributed to micro-services development and server maintenance.

ReactJS · Redux-Saga · ExpressJS · NodeJS · Hive Blockchain

TOOLS & PLATFORMS

- VS Code / Vim
- Git / GitHub / GitLab
- Vercel / Netlify
- Firebase / Supabase
- Figma / Adobe XD
- Jira / Notion / Linear
- Postman / Insomnia
- Docker / Kubernetes
- AWS EC2 / S3 / Lambda
- GCP Cloud Run

SOFT SKILLS

- Remote Collaboration
- Technical Mentorship
- Problem Solving
- KAIZEN Mindset
- Clear Communication
- Self-Management

7+ Years Experience

15+ Projects Delivered

6 Companies

4 Countries

FEATURED PROJECTS

AI for Business

AI Platform · aiforbusiness.com

Comprehensive AI platform for enhanced productivity, automation, and strategic

React · TypeScript · AI/ML

Pulsar

Analytics / BI · pulsardash.com

Consolidates GA4, Ahrefs, Shopify, WooCommerce, and Google Ads into one unified

Next.js · TypeScript · Tailwind CSS · AI/ML

Covert Caddy

E-commerce · covertcaddy.co.uk

UK marketplace for premium golf equipment with instant quotes, simulator rentals, and club hire

Next.js · TypeScript · Tailwind CSS

Enterprise Resource Management

ERP / Inventory · NDA

Enterprise inventory and merchandise management system built for the German retail

React · TypeScript · Node.js

Electric Studio

Fitness Platform · electricstudio.ph

The Philippines' first and largest indoor cycling boutique platform with online booking and

Next.js · Stripe · Prisma

E-commerce Accounting Platform

FinTech · NDA

Full-service ecommerce accounting for Amazon & Shopify sellers — bookkeeping, payroll, and tax

React · Python · AWS

WHAT I BRING TO YOUR TEAM

Production-First Mindset
Every line of code I write is meant for real users. I prioritize reliability, performance, and

Full Ownership
From architecture decisions to deployment pipelines, I take full ownership of features and

Remote-Ready & Async-Fluent
With 7+ years of fully remote experience across Europe, Asia, and the Philippines, I communicate

KAIZEN Philosophy
Continuous improvement is not a buzzword for me — it is how I approach every sprint, every code

Open to Remote Opportunities Worldwide
Available for full-time, part-time, or contract roles · Immediate start possible
